

Horizon Farm Public Meeting Q&A, 6/14/22

- **Will swimming be allowed on the site?**

No. Because of public health and safety concerns, entering or swimming in any waterbody in the Forest Preserves is prohibited.

- **Will gravel roads be available for bikes?**

Yes, the trail system will be a combination of gravel and mowed trails, available for pedestrians, bicyclists, and equestrians.

- **What is the Forest Preserve policy on e-bikes?**

The policy can be found [here](#).

- **Is the entrance on the north off Old Sutton Road the only available entrance?**

At this time, yes. There could be additional access provided in a future development plan.

- **Will an off-leash dog area be considered for the site?**

We are not considering an off-leash dog area for this site. Please see the Forest Preserve policy on amenity requests [here](#).

- **Will there be a stop-light at Old Sutton Road and Algonquin Road?**

The Forest Preserves is not aware of any plans for a traffic signal at the intersection. The Illinois Department of Transportation is the jurisdictional roadway agency and would be responsible for any roadway infrastructure.
